Oil & Gas Database Management System

PetroMan combines the power of AS2 programming with simple elegance to provide you with a software solution to calculate, manage, report, and export oil and gas filings.

- **Robust Data Entry Screens** match state prescribed forms for ease of well and interest holder data entry.
- **Quickfind** methodology allows for fast access to wells by well numbers, owner/operator name, address, etc..
- **Advanced Finder/Filter** technology gives users an easy to navigate interface to search interest holder names, addresses, legal descriptions, and lease descriptions. Filters include taxing districts, townships, and ranges of assessed values.
- **Reports** similar to the G&O form prescribed by the state and can be printed singularly or in batches.
- **Summary Reports** are also available that include information about the owners/operators and interest holders, or just the owners/operators.
- **State Standard Exports** for interest holders and wells can be exported at the click of a mouse for submission to the DLGF. As with all AS2 software, these exports will be updated as new versions are dictated by the DLGF. Other exports include the state defined auditor interface file as well as a custom export for MVP Tax.

The screenshot displays the PetroMan software interface. At the top, there are navigation buttons: 'Open', 'New Interest', 'Previous', and 'Next'. Below these is a search section with 'Search By:' and 'Criteria to Pick From:' dropdowns, both set to 'OwnerName' and 'POTTS PAUL E & ROSELLYN'. To the right, a green box labeled 'Interest Information' shows summary values: 'Working Assigned' (0.820312), 'Royalty Assigned' (0.179688), and 'Working + Royalty (Should = 1)' (1). Below this is a data table with columns: pkInterestID, Active, Delete, Interest Number, Owner Name, Street Address 1, Street Address 2, City, State, Zip, and four columns labeled 1, 2, 3, 4. The table contains three rows of data, with the second row (pkInterestID 3062) highlighted in green. An 'Interest Update' dialog box is open in the foreground, mirroring the data of the selected row: Interest Number (63-88-88-008-235-000-001), Interest Number 2 (001-08235-00), Owner Name (POTTS PAUL E & ROSELLYN), Street Address 1 (8689 W PRIVATE RD 375 N), City (HAZLETON), State (IN), Zipcode (47640), Royalty/Working (R), Column 2 (0.125), Column 3 (0.69565024), and Column 4 (18100). The dialog box also includes an 'Interest Note' field and 'Update' and 'Close' buttons.

2008 Active Filing Number 1 001-051 Recorder's # [] Delete System ID 297
 Name COFRE MINERALS OPERATING CO Telephone Number []
 Address 1 1510 WASHINGTON AVE Contact Person MIKE MCLEAR
 Address 2 Contact Title 812-882-5410
 City VINCENNES State IN Zip 47591 Owner Operator

SECTION 2 LEASE INFORMATION

Location (Primary Parcel #) 63- District No. 001 CLAY TOWNSHIP Co PIKE
 Lease DICKERMAN Twp 0001 CLAY TOWNSHIP Acres 55
 Legal WELL # 51 Sec 32 Twp IN Rng 9W

Check if the well is an oil well using secondary recovery method. Also check if the well stimulates oil production by means of injection of water, steam, hydrocarbons, or chemicals, or by in situ combustion. (IC 6-1.1.4-12.6)

SECTION 3 FACTORS FOR BASIS OF ASSESSMENT

A. Gas or oil in storage on March 1st.	6.8	
B. Price per unit of gas or oils on assessment date (per DLGF)	\$52.90 / bbl Crude Oil	
C. Assessed Value of products in storage (multiply 3A, by 3B., enter here and in 5D.)		360
D. Average daily production of gas or oil.	5	
E. Annual production value (multiply 3B. * 3D. * 365)	96543	
F. Enter 0.5 if secondary recovery method in use; Enter 1.0 if initial recovery method.	1	
G. Interest in gas or oil rights (multiply 3E, by 3 F.)		96543
H. Appurtenances - enter number of producing wells	1	
I. Enter value of single well appurtenance (per DLGF)	3860	
J. Total value of appurtenances (multiply 3H, by 3I.)		3860
K. Total basis of working interest assessment (Sum 3G, and 3I, and enter here and in 5A.)		100403

SECTION 4 COMPUTATION OF ROYALTY ASSESSMENT

A. Interest in gas or oil rights (from 3G.)	96543	
B. Basis for royalty assessment (multiply 4A, by 1.5)	144815	
C. Enter royalty interest factor (for example, 0.1250 for 1/8 interest)	0.179688	
D. Total royalty interest assessment subject to allocation on page 2 (multiply 4B, by 4C.)	26022	26022

SECTION 5 COMPUTATION OF WORKING INTEREST ASSESSMENT

A. Total basis of working interest assessment (from line 3K.)	100403	
B. Enter total royalty interest assessment (from 4D.)	26022	
C. Working Interest Factor	0.820312	Working interest assessment (subtract 5A, minus 5B.)
D. Oil in storage - excluded from interest assessments per 100% Inventory Deduction (IC 6-1.1-12-42) (from 3C.)		360
